

SWISS FEDERAL TAX REFORM

IN A NUTSHELL

Say YES to a more balanced and internationally accepted tax system

+ **A simple guide on how to vote on 19 May**

Federal Vote

Item 1 **Do you accept the Federal Act of 28
September 2018 on Tax Reform and
AVS Financing?**

YES

A more balanced tax system for companies

Small or large, local or international, all companies will be treated on equal footing.

The Federal Council and Swiss Parliament have elaborated a positive reform for the economic health of Switzerland. The reform will create a tax system which is more transparent and balanced, and in line with international standards.

Thanks to the new tax reform, the federal authorities will provide increased support to the cantons and communes. For example, Geneva will receive 111 million francs per year.

An additional two billion per year for the AVS

Ensure the retirees of today and tomorrow can face the future on a solid foundation.

The financing of the AVS is deteriorating. Revenues are no longer sufficient to cover pensions. Under the new law, **two billion francs** each year will be put towards consolidating the AVS.

**VOTE
YES**

to the Federal Act of 28 September 2018 on
Tax Reform and AVS Financing (TRAF)
